

## 固定式升降翻轉裝置

### FIXED TYPE LIFTING & TILTING DEVICE

+

#### 原理介紹 +

將料桶推入此設備固定桿並利用油壓或螺桿上升至指定高度減速機馬達翻轉料桶將原料倒入打錠機或填充機。

#### 特點 +

- 可以和流動層乾燥機之產品台車及升降混合機之混合桶搭配使用。
- 固定於地板及天花板，承重性高。
- 底部固定座可 360 度旋轉，含固定插銷設計以防滑動。
- 鏡面拋光的錐形倒料斗可增加整粒裝置。

#### THEORY +

Put material container to the fixing arm. Fixing arm lifts via screw lifting or hydraulic lifting systems to designated height then tilts via motor with reducer to discharge material into designated devices such as tablet press and filling machines.

#### FEATURE +

- Use with fluid bed dryer's product container and bin blender IBC tanks.
- Fixed on ground and ceiling to bear heavy duty.
- Bottom 360° rotation base includes fixing pin to prevent sliding.
- Cone discharge hopper with mirror polish can be equipped with milling device.

#### 原理介紹 +

將料桶推入此設備固定桿並利用 12V 的電動油壓馬達上升至指定高度再翻轉料桶將原料倒入指定設備。

#### 特點 +

- 可以和 100 公升 /200 公升之儲存桶搭配使用。
- 搭配可充電電池及活動煞車輪方便使用者移動。
- 出料斗採錐形設計，內部鏡面拋光，方便出料。

#### THEORY +

Put material container to the fixing arm. Fixing arm lifts via a 12V hydraulic motor to designated height then tilts to discharge material into designated devices.

#### FEATURE +

- Use with 100L/200L storage tanks.
- Equipped with rechargeable battery and casters for mobile use.
- Cone discharge hopper with mirror polish for easy discharge.

## 移動式升降翻轉裝置

### MOBILE TYPE LIFTING & TILTING DEVICE
